BELLEVUE UNIVERSITY

Computer Information Technology
Bachelor of Science in CyberSecurity

Program #: YIEP / CYBRCBS 0517 (May 2017)
Section Code: M889

Buying Tips:

A book substitution can occur due to edition changes or printing status; therefore, <u>DO NOT</u> purchase texts for the whole program at one time. **Purchase your text(s) within three weeks of course start date.**

►Make sure any book you obtain has the same ISBN number as shown below.

►We only guarantee Follett's Bellevue University Bookstore purchased books. Books purchased from other sources are non-refundable if there are changes.

►Buy books 3 weeks prior to the course start date to avoid any delays but <u>DO NOT</u> purchase more than 3 weeks in advance.

►Used books might save you money but supplements to book could be missing or corrupt - which could make the book worthless.

AUTHOR	BOOK	ISBN	EDITION	PUBLISHER	COURSE
Session 1					
Smith	Elementary Information Security	9781284055931	2/E	Jones & Bartlett	
Course Name	*Introduction to Cyber Threads, Technologies and Security*				*CYBR 250*
Eastton	Modern Cryptography	978-1259588082	1/E	McGraw Hill	
Course Name	*Cryptography*				*CIS 313*
Weaver	Guide to Network Defense and Countermeasures	9781133727941	3/E	Cengage	
Course Name	*Network Security*				*CIS 311*
Ballad	Access Control, Auth & Public Key	9781284031591	2/E	Jones & Bartlett	
Course Name	*Securing Access Control*				*CIS 312*
Session 2
